A practical report on three websites developed using HTML and CSS

A visual overview of the three website designs provided

Introduction

This document explains the purpose, main sections, visible content, and key features of each website, with the original screenshots included.

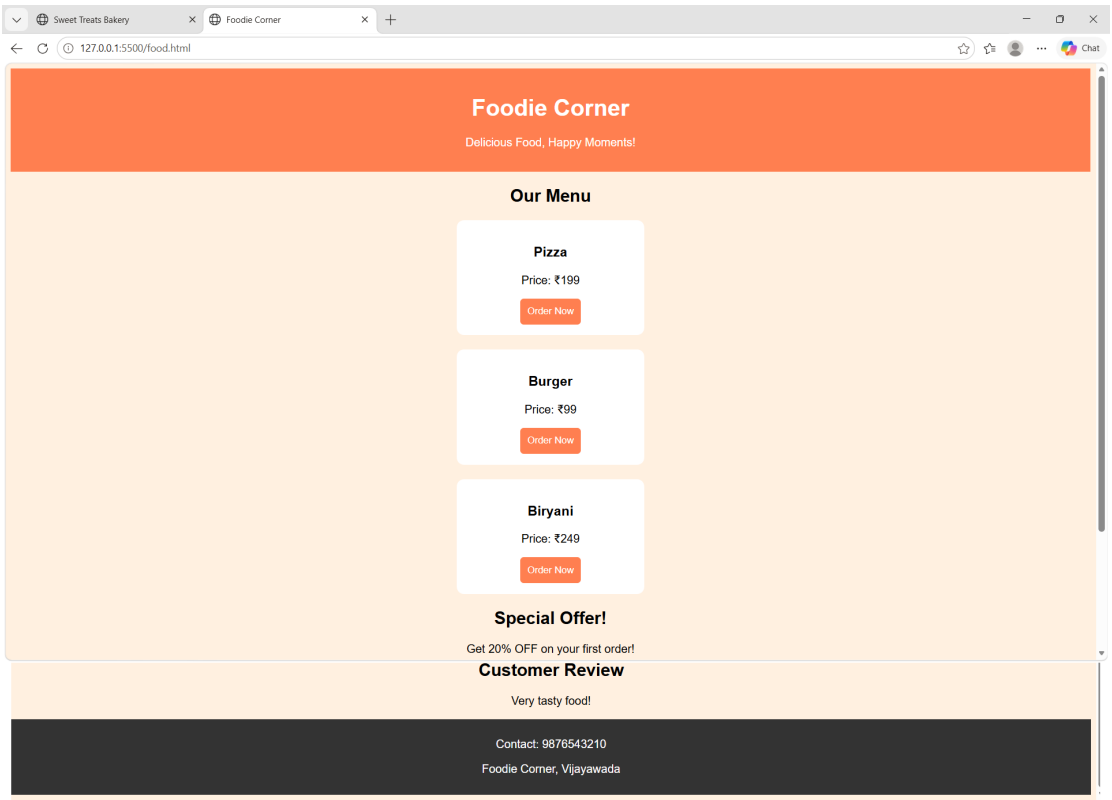

1. StyleCart – Fashion Shopping Website

StyleCart is an online fashion and accessories shopping homepage. The top section displays the brand name and tagline, followed by navigation links for Home, Shop, Offers, and Contact. A large hero banner promotes the 2026 collection with the headline “Little things. Beautiful style.” and an Explore Collection button. The “Shop Our Collection” section presents four product cards: a classic T-shirt (■499), everyday sneakers (■1,299), a classic watch (■999), and a daily backpack (■799). Each card includes a product image, category, name, price, and an Add to Cart button. A promotional section encourages visitors to shop, and the footer contains the brand name, a short message, email contact, and copyright information.

Overall purpose: To showcase products attractively and help visitors browse and add fashion items to a cart.

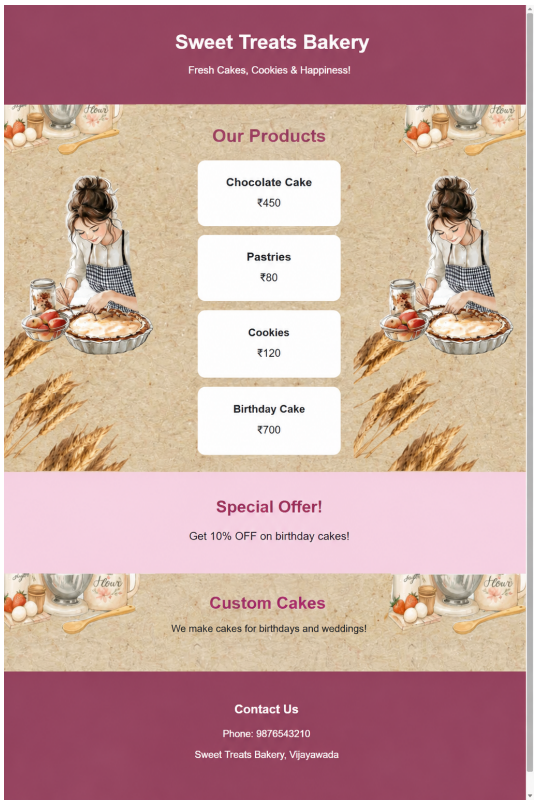

2. Foodie Corner – Restaurant/Food Website

Foodie Corner is a simple food-ordering website with a warm, peach-colored background and an orange header. The header shows the website name and the tagline “Delicious Food, Happy Moments!” Under “Our Menu,” three menu cards list Pizza (■199), Burger (■99), and Biryani (■249), each with an Order Now button. Below the menu, a Special Offer section advertises 20% off the first order. A Customer Review section displays the comment “Very tasty food!” The dark footer provides a contact phone number and the location, Vijayawada.

Overall purpose: To present a small restaurant menu, highlight an offer, display customer feedback, and encourage customers to place orders.

3. Sweet Treats Bakery – Bakery Website

Sweet Treats Bakery is a bakery website promoting cakes, pastries, and cookies. Its maroon header displays the bakery name and the tagline “Fresh Cakes, Cookies & Happiness!” The “Our Products” area uses a bakery-themed background and lists Chocolate Cake (■450), Pastries (■80), Cookies (■120), and Birthday Cake (■700) in separate white cards. A Special Offer section advertises 10% off birthday cakes. The “Custom Cakes” section explains that cakes can be made for birthdays and weddings. The final Contact Us section shows a phone number and the bakery’s location, Vijayawada.

Overall purpose: To display bakery products and prices, promote birthday-cake discounts, advertise custom orders, and provide contact details.
